

PPP PROJECT

Installation of computer tomography in health care organizations of the Kyrgyz Republic

General information

Description of the project

This project implies the creation of 6 centers for computed tomography (CT) diagnostics in healthcare organizations (Bishkek and regions).

The project can become the resource that will allow investments in infrastructure and equipment, and at the same time introduce state regulation of the cost of these services for the population. The implementation of this project will allow solving the following tasks:

- ✓ higher efficiency of project implementation due to the use by the partners of the partnership of their strengths;
- ✓ improving the quality of services provided due to quality standards;
- ✓ improvement of control and strengthening of liability within the framework of the contract;
- ✓ attraction of investments;
- ✓ ensuring physical and economic access of the population to CT services.

The final list of 6 health care organizations (HOs) for the installation of CT devices has been determined:

- *Republican Diagnostic Center under the Ministry of Health of the Kyrgyz Republic*
- *Balykchy territorial hospital*
- *Uzgen territorial hospital*
- *Toktogul territorial hospital*
- *Kadamjai territorial hospital*
- *Childhood and motherhood National center*

Industry:	<i>Healthcare</i>
Public partner:	<i>Ministry of health</i>
Location:	<i>Bishkek, regions</i>
Quantity:	<i>6 CT scans</i>
Project cost:	<i>2,4 mln USD</i>
PPP model:	<i>FOT</i>
Payback of the project:	<i>Consumer payments</i>
PPP agreement period:	<i>15 years</i>

State contribution:

Provision of premises;
Tax preferences;
Assistance in obtaining licenses;
Other obligations under the Agreement.

Obligations of private partner

Purchase of computer tomography's;
Providing quality CT services;
Other obligations under the Agreement.
